## TERMS & CONDITIONS

**ORDERING** - We recommend that you order Husky products through your preferred dealer or industrial distributor. If you are unable to find a dealer in your area, please contact our customer service for assistance or visit our website at [www.huskybicycles.com](http://www.huskybicycles.com). **By placing an order, customers agree to HLF's terms and conditions stated herein and on its website at [www.huskybicycles.com](http://www.huskybicycles.com).**

**PRODUCT INFORMATION** - At Husky Bicycles, we strive to provide the best and most advanced industrial bicycle products on the market. Throughout this catalog, you may see references to specific models of Husky bicycles or tricycles. These references are provided to guide you in your selection and are not meant to restrict the use of other parts or components that can also be used on these models. We continuously look for new and better products and components to replace current parts used in our models. You may, therefore, see more than one part for a specific component or a model.

Products and country of origin may be substituted from to time and may not be identical in exact images or descriptions published in this catalog.

Products offered in this catalog are primarily selected to fit Husky bicycles and tricycles. However, we have many parts and components that are common to other brands of bicycles and tricycles. If you are looking for parts for other brands and you are not certain that the part you are ordering will fit your bicycle, please call our customer service for assistance. However, HLF/HUSKY does not guarantee suitability of any of parts sold and installed on bicycles or tricycles of other brands.

**SHIPPING** - Products are shipped FOB shipping point. Unless otherwise specified by customer, all orders are shipped prepaid and charges are added to your invoice. Title of products ordered and risk of loss is transferred to customer at the point of shipping and delivery to carrier. HLF/HUSKY is not responsible for any loss of or damage to products after they have been delivered to carrier. Customer is responsible for inspection of goods received from carrier and must note any visible damage to boxes or cartons on carrier's delivery receipt.

**RETURNS** - Products ordered may be returned within six (6) months from date of purchase for any reason. A return authorization must be obtained prior to returning any goods. All returns must be made freight prepaid unless the return is due to an error by HLF, in which case, HLF will pay for the return of goods. All returns (other than warranty returns) must be unused, in original packing, undamaged, and in sellable condition. We may charge a restocking, repacking, or recovery fee if the product returned is damaged, unsellable, or not in original packing. The amount of restocking fee will be determined after the returned goods are inspected by HLF.

**WARRANTY** - Unless covered by a specific product warranty detailed in owner's manual, all goods sold by HLF are warranted for a period of one year from the date of purchase. If a product is accepted for return, HLF may, at its option, repair, replace, or refund the amount paid by customer. All other warranties of merchantability, fitness for a particular purpose, or non-compliance with regulatory requirements, are specifically disclaimed. HLF/HUSKY shall not be liable for incidental, consequential, exemplary, or punitive damages. Maximum liability in all circumstances shall not exceed the purchase price paid for the product subject to warranty claim.

Bicycles and tricycles are covered by the terms of limited warranty detailed in the owner's manual. A copy of the manual can be obtained at [www.huskybicycles.com](http://www.huskybicycles.com). For questions regarding product warranty, please contact customer service at (800) 392-3337 or email [support@huskybicycles.com](mailto:support@huskybicycles.com).

**ORDER CANCELLATION** - All order cancellations must be approved by HLF. Items listed in HLF catalog or HUSKY website may be cancelled at any time prior to shipping. Orders for customized products such as custom paint, assembled bicycles or tricycles, or special orders for non-stocking items shall be subject to a restocking or order cancellation fee.

More information on HLF's terms and conditions is available on: <http://www.huskybicycles.com/index2.html>

## BICYCLES

### HD-105 Industrial Bicycle

- Heavy duty tig welded hi-tensile steel frame and fork
